

## Presentation/ Introduction

Hi, my name is Beth and I'm going to be working at your lycée as the English language assistant until the end of April. I'm from Hull which is situated in a region called Yorkshire on the North East coast of England. I study French at university in Norwich which is about 3 and a half hours away from Hull by car. I have been studying at university now for two years and will study there for one more year after my year abroad before I graduate.

In my spare time at university, I like to play a sport called Ultimate Frisbee. Not many people have heard of it but it's very popular in America and Australia. I also love listening to music and going to gigs, I'm very lucky because lots of great bands play at my university so I have been able to see The Kooks and The Vaccines play there.

I'm really looking forward to hopefully working with a lot of you before the end of April.
